SKILLS

- **Languages**: C, C++, Java, Python, JavaScript
- **Web Technologies**: HTML, CSS, MERN Stack (Basic- MongoDB, React, Node.js), DBMS
- **Platforms/Tool**: MySQL, Excel, Power-BI, Figma, Canvas
- **Soft Skills**: Leadership, Critical Thinking, Problem-Solving, Adaptability

PROJECTS

Laptop Price Predication System | Machine Learning (Python) | Link Dec'25

- Built an end-to-end **machine learning model** to predict laptop prices using hardware specifications.
- Performed **data preprocessing, EDA, and feature analysis** to improve model performance.
- Applied **Linear Regression, Decision Tree, Naïve Bayes and KNN**, comparing performance to improve prediction accuracy.
- Achieved improved prediction performance and generated **data-driven insights**, enabling more accurate price estimation.

Airbnb Data Dashboard | Power- IB | Link Dec '25

- Built an **interactive dashboard** to analyse pricing, availability, and listing trends across locations.
- Transformed data using **Power Query and DAX** to create meaningful and structured datasets.
- Designed **dynamic visualizations, filters, and drill-down features** for better data exploration.
- Enabled **faster and more effective decision-making** by presenting clear and actionable insights.

Pet Care Management App Prototype | Figma | Link Apr'25

- Designed **wireframes, prototypes, and UI layouts** to define user flow and structure.
- Conducted **user research and usability testing** to identify and resolve navigation issues.
- Developed **responsive and accessible designs** for consistent user experience across devices.
- Improved **user engagement and usability** by creating an intuitive and user-friendly interface.

TRAINING

Full Stack Development | React.js, Node.js Jun'25-Jul'25

- Developed **responsive web applications** using React and Node.js.
- Implemented **RESTful APIs and dynamic UI components**.
- Improved performance through **debugging and efficient data handling**.

CERTIFICATES

- Introduction to DevOps – IBM (Coursera) | Link Mar'26
- Cloud Computing – NPTEL| Link Oct'26
- Data Science – Code with Harry | Link Oct'25
- Adobe Flash – Infosys Springboard | Link Aug'25
- Video Compression Demystified – Infosys Springboard | Link Aug'25
- Data Analytics Job Simulation – Deloitte (Forage) | Link Jun'25
- Software Engineering: Implementation and Testing – Coursera | Link Apr'24

ACHIEVEMENTS

- Solved **190+ Questions** on platforms like **LeetCode,** strengthening problem solving and thinking skills.
- Secured **4th position** in **CODE OF DUTY**- a 48-hr web hackathon that demonstrated my creativity and team work
- Secured **First Runner-Up** in Speaking Competition – Centre for Professional Enhancement (LPU)

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering, **CGPA: 7.02** Aug'23-Present
- **Shivam Residential Public School** Nalanda, Bihar
  Intermediate, PCM, **70.2%** Apr'21-Mar'23
- **St. Paul English School** Nalanda, Bihar
  Matriculation,**82%** Apr'20-Mar'21
